

INTRODUCTORY SCIENCE COURSES FOR NON-SCIENCE MAJORS

The following science courses are recommended for non-science majors:

ASTR 100	3 credits	Introduction to Astronomy
ASTR 110	1 credit	Introduction to Astronomy Lab, optional
BIOL 101	4 credits	Principles of Biological Systems (with lab)
BIOL 102	3 credits	Principles of Human Biology
BIOL 107	4 credits	Biology and Society: Biology for an Engaged Citizenry (with lab)
BIOL 108	4 credits	Marine Diversity (with lab)
BIOL 113	3 credits	Evolution
BIOL 114	3 credits	Sex and Consequences (Honors)
BIOL 115	3 credits	Human Nutrition
BIOL 230	4 credits	Biology of Cells and Genes (with lab)
CHEM 100	3 credits	Chemistry and Everyday Life
CHEM 111	1 credit	Implications of Chemistry lab (optional, to accompany CHEM 100)
CHEM 120	3 credits	Sustainable Chemistry
CSCI 131	3 credits	Introduction to Programming
ENVR 100	3 credits	Introduction to Environmental Science
ENVR 104	3 credits	Earth Processes as Natural Disasters
ESSC 103	3 credits	Introduction to Earth Science
ESSC 113	1 credit	Earth Science Laboratory
