

# Focus2 Career Assessments

## Information about the Focus2

Focus2 is a career assessment tool that will help you discover how your personality, interests, skills, and values pertain to investigating and selecting career paths and choosing a major.

**The Focus2 features 7 assessments. You must complete 5 (see instructions below).**

Complete Focus2 in a quiet place that is free from interruptions. Answer the questions honestly and quickly. Do not answer questions as you think they should be answered, but rather how you truly feel about the questions. Many of the answers will be very close and you will have to make difficult decisions to select between your options. Do the best you can and be honest.
