

Title: Adding Email to Safe Senders in Outlook 2019 for PC

Task:

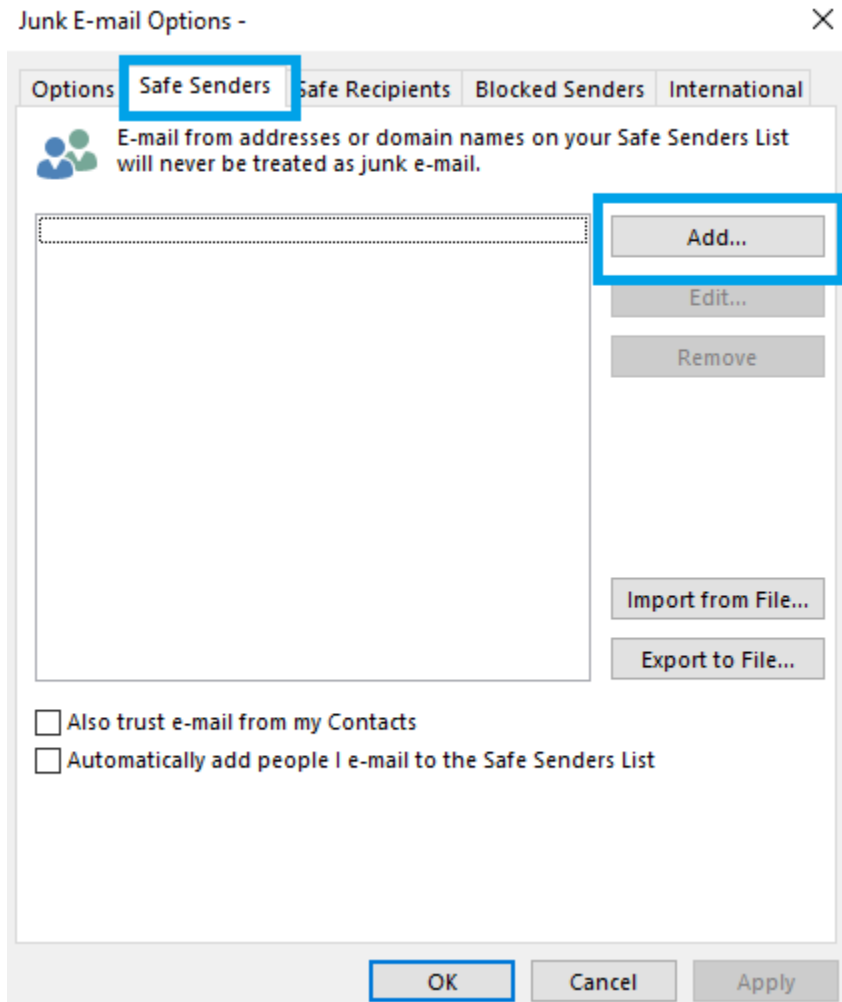

Email that is sent to your Junk folder can be flagged as safe to be delivered to your Inbox.

Instructions:

Step One: With Outlook 2016 open, select **Junk** in the **Delete** section and select **Junk Email Options...**

Step Two: select the **Safe Senders** tab and click on **Add**.

Step Three: enter either the email or @domain address and select **OK**.
